

Founding Manager

Founder & Manager

Mahatma Gandhi once said –“**Education means all-round drawing out of the best in child and man-body, mind, and spirit**”. I feel honored and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. I believe that learning is not the only important aim of the institution but the development of students in every sphere, be it behavior, skills and other disciplines is equally significant.

Dr. I. D. Rastogi

- **Founding Manager, Town Hall Education Society**
- **B.A., B. Ed, M.A. (English), M. A. (History), Ph.D. (Western History)**

Our Founding Manager is a well known academic visionary and social worker with extensive experience in the area of education. She started her career as a part-time teacher with City Montessori School, Lucknow and quickly established her credentials as an educationist par excellence and within a short span of time, as recognition of her stellar performance was first promoted to the post of vice-principal of Rajajipuram branch and subsequently to principal of Asharfabad

branch.

However, Dr. Rastogi had her own vision and ideas about the kind of education she wanted to impart to her students and in order to fulfill her vision, she ventured out on her own and started her own educational institute in 1994, out of a rented premise. Town Hall Public Inter College as a result of her efforts of providing differentiated education to students and thus contributing to the greater good of the society by nurturing the next generation of Global Citizens who are not just academically oriented but also have a strong moral and ethical fiber.

From a modest beginning in 1994, Dr Rastogi's vision has grown and transformed into a well-know education enterprise with a presence in many prominent localities of Lucknow. In keeping with the vision of Dr. Rastogi, the schools with its dedicated staff have earned a strong reputation for obtaining excellent academic results from its students but also as schools where overall development of student, including extracurricular and sports, are taken various seriously.

Dr. Rastogi is a prolific social worker and has been very effectively channeling her social contribution through these educational institutes. Children from economically weaker section are given free / subsidized education with the cost differential being borne by Dr. Rastogi. Those in need of employment are engaged in various capacities to enable them to earn an honest livelihood

Message from the Founder Manager

Although a rigorous academic program is at the core of everything, we at Town Hall, do an equally outstanding co-curricular and extra-curricular agenda for students which endow them with a much needed holistic education to give them a competitive edge over their counterparts elsewhere

The schools under the society have been continuously expanding

its scope and range of activities. Our curriculum, instruction and assessment follow the directives set forth in our strategic plan, laid down by the I.C.S.E and the State Board educational patterns & norms. The Management, staff and students are committed to this mission and work together to obtain exceptional results in the academic, co-curricular, extra-curricular arenas for a productive life.

We are also working towards optimum overall development of each student who steps into the corridors of our schools rendering holistic learning, delivered by highly qualified, professional staff within an outstanding infrastructure.
